

1990, □ 6

CONTENTS

Electrodynamics of Electric Power Devices

Vishtak P.A., Zinchenko T.R., Kondratenko I.P., Rashchepkin A.P. Electromagnetic and Thermal

Fields Under Induction Heating of Bands with Temperature Dependence of Electric Conductivity

3

Burdak A.P., Reztsov V.F., Khadzhinov A.L. Local Distribution of Fields and Heat

Release in the Nonideal Dielectrics with Inhomogeneities _____

9

Kalmyk V.A., Kuznetsov L.A., Pavlovskaya G.V. Calculation of Field Structures in

Wave Guides with Resistive Films _____
_____ 14

Lavrov V.Ya., Kirpanev A.V., Pukhanov A.V. Application of the Huygens-Kirchhoff Principle

for Identification of Electromagnetic Field in Spherical
Coordinates _____ 18

Gorodzha L.V., Obnosov Yu.V., Strilko S.I. Calculation of Resistance of Polygon

Two-Electrode
Systems _____ 22

Medvedov I.V., Chechko G.A., Panchuk V.I., Mironchuk A.N., Smirnov I.M. Simulation

of the Process of Formation of Conducting Structures on the Surface of Thin Dielectric

Covering of the Conductor _____
_____ 27

Karchov D.S., Soloveichik Yu.G., Vaskovsky Yu.N. Mathematical Simulation of
Three-Dimensional

Electromagnetic Field by Means of PЭMΠCO Program

Package_____

32

Transformation of Electric Energy Parameters*Fediy V.S.* Gate Compensator of Induction Current and Odd Harmonics

on the Base of the Resonance Filter_____

39

Zhuikov V.Ya., Tereshchenko T.A., Gandur A. Increase of the Speed of Response

of the Width-Pulse Transformer with Digital Regulation_____

44

Pisarchuk S.E., Duplin N.I. Peculiarities of the Consideration of Inductivity of TransformerInventor Scattering Under Its Supply from Power
Source_____ 49**Electromechanical Transformation of Energy**

Polevsky V.I. Electromagnetic Moment of Superhigh Vacuum Linear Asynchronous

Motor with Hollow Rolling Rotor

55

Golodnova O.S., Evtushenko I.A., Fedorenko G.M., Yantsov A.A. Study of Mode and Thermal

Parameters of Fastening Elements of the Stator Core of Powerful Turbogenerator of Atomic

Power Station

60

Karalyunas B.S., Smil'gyavichus A.Yu. Dynamic Braking of Linear Asynchronous

Motor Under Odd Number of
Poles

66

Shneider A.G., Shneider I.V. Electromagnetic Propulsion of the Rotor of RSMB

70

Chaban V.I., Bilyi L.A. Accelerated Search of Forced Periodical Conditions

of Deep-Groove Asynchronous Engines

73

Mezhenny Yu.Ya., Voloshin S.G., Bronshtein G.S. Measuring of the Winding

Temperature of Current in Transition
Modes_____78

Lazarev V.I., Naumenko L.V. Radial Stability of Cylindrical Winding of Transformers_____8

3

Electric Power Systems and Installations

Kirilenko A.V., Levitsky V.G., Runkovich V.V. Automation of Calculations of Calculations

of Arbitrary-Order Derivatives Under Design of Power Supply Objects_____89

Nedzelsky I.S. Simplification of Mathematical Model of APB Synchronous Machines When

Calculating Static
Stability_____93

Skrypnik A.I., Dembitskaya Ya.D. Realization of Nonlinear Dependences in Models

of the Analysis of Electromechanical Transients_____

96

Danilyuk A.V., Zhurakhovsky A.V., Komarov V.I., Lysyak G.N. Method of the

Mode Equivalencing of Electric
Circuits_____ 100

Scientific and Technical Information

Shnaider A.G. Device

HMX-1_____

106

Shnaider A.G. Portable Meter of Rotation

Frequency_____

88
