

1993, □ 2

## CONTENTS

### Electrodynamics of electrical power devices

*Anisimov Ya. F.* Probability indices of electromagnetic compatibility of elements in electrosystems \_\_\_\_\_ 3

*Podoltsev A. D., Kucheryavaya I. N.* Digital simulation of liquid metal motion in pulse magnetic field of cylindrical inductor \_\_\_\_\_ 5

*Ignatyev I. G.* Optimization criteria of gas-insulated electrodes systems \_\_\_\_\_ 10

*Vasilyev A. V., Kozlyuk V. N., Tchech' V. V.* Mathematical model of wind power potential \_\_\_\_\_  
13

### **Electric energy parameters conversion**

*Volkov I. V., Baranov G. L., Kozurman I.* A Steady-state electrical regimes at parallel operation of

generator with a power system through inductive-capacitive transducer for a general balanced

three-phase load \_\_\_\_\_  
\_\_\_\_\_ 17

*Tonkal V. E., Denisyuk S. P.* Application of numerically-differential approximation method at models

construction and power supply systems analysis \_\_\_\_\_

*Sidorets V. N., Pentegov I. V.* Initiation and structure of a strange attractant in RLC-circuit with

electric arc

28

*Samoty V. V.* Analysis of steady-state regimes of single-phase full-wave rectifier 32

*Fediy V. S.* Determination of the initial capacitor voltage at even relation of periods of output

voltage and control of single-phase valve-capacitor source of reactive power

35

*Cherednichenko S. L.* Characteristic properties of valves commutation in a scheme of single-phase

valve-capacitor source of reactive power

41

## Electromechanical energy conversion

*Vdovin S. S., Zirka S. E., Moroz Yu. I.* Multielement scheme of pulse transformer substitution\_ \_\_\_\_\_  
44

*Smorodin V. L., Kramarsky V. A., Kuzmin V. V., Tcheremisov I. Ya.* Conception of non-traditional  
fulfilment of end stator zone of turbogenerators with a complete air cooling \_\_\_\_\_  
\_\_\_\_\_ 47

*Sinchuk O. N., Afanas'yev E. V., Yuzov E. S., Afanas'yeva M. G.* Parameters determination of  
electrical braking systems of thrust drives with pulse contro  
| \_\_\_\_\_ 50

*Karalyunas V. S., Smilgyavichus A. Yu.* Brake regimes of linear asynchronous motors \_\_\_\_\_  
\_\_\_\_\_ 53

## **Electric power systems and installations**

*Stogniy B. S., Selikhman N. A., Tankevich E. N., Sinyakova A. M.* Mathematical model of  
electro-magnetic processes in current transducers and determination of its characteristics  
\_\_\_\_\_ 58

*Dzhuvarly Ch. M., Dmitriev E. V., Lyu Minguan* Method of velocity limiting of short-circuit

currents

decrease to a zero value \_\_\_\_\_  
\_\_\_\_\_ 62

*Vis'nevsky S.* Electric power protection of a system of module protective automation \_\_\_\_\_ 65

### **Electrical and magnetic measurements**

*Velichko O. N., Taranov S. G.* Special features of complex periodical signals forming with the prescribed harmonic coefficient \_\_\_\_\_  
\_\_\_\_\_ 68

*Monastyrsky Z. Ya.* Automation of simulative check of capacitive level gauges \_\_\_\_\_ 72

*Savolyuk A. M.* Application of capacitive pickups with dielectric coating of electrodes for multi-layer media levels measurement \_\_\_\_\_  
\_\_\_\_\_ 77

To the memory of Valeriy Alexandrovich Barabanov
