**TECHNICAL ELECTRODYNAMICS
2009**

CONTENTS

Theoretical electrical engineering and electrophysics

[SHYDLOVSKA N.A., SAMOILENKO V.G., KRAVCHENKO O.P. Analytical method of nonlinear discharge circuits research](#) 3

[ROZOV V.Yu., PELEVIN D.E., REUTSKY S.Yu. Parameters optimization of the systems of stationary distortions compensation of a geomagnetic field in apartments](#) 11

Conversion of electric energy parameters

[OLESCHUK V., PRUDEAK R., SIZOV A., GRIVA G. Hybrid vehicle drive with synchronously modulated dual inverters](#) 17

Electromechanical energy conversion

[PODOLTSEV A.D., KOZYRSKY V.V., PETRENKO A.V. Analysis of dynamic processes in a single-phase electromagnetic linear generator of a reciprocal motion](#) 22

Electric power systems and installations

- [KOSTEREV N.V., DENISJUK P.L., LITVINOV V.V. Determination of priority of methods of static stability increase of a load center with asynchronous motors in the conditions of multicriterion choice](#) 31
- [BONDARENKO V.E, TCHERKASHINA V.V., BARBASHOV I.V., TCHEREMISIN N.M., LINNIK E.M. Analysis of the state and prospects of increase of electric power transmission increase by air-lines of alternating current in Ukraine](#) 37
- [DEMOV O.D., PALAMARCHUK O.P. Adjustment of input reactive power of users taking into account economic stability](#) 44

Electrotechnological complexes and systems

- [VASETSKY YU.M., MAZURENKO I.L. Geometrical parameters of electromagnetic systems for high-frequency induction heating of metallic tapes](#) 47
- [KARLOV A.N., KONDRATENKO I.P., RASCHEPKIN A.P. The method of electrodynamic forces computation in cylindrical crystallizers under the action of the combined traveling fields](#)

Information-measuring systems in power engineering

- [MAZMANYAN R.O. Wavelength characteristics of the ordered samples of a random uncorrelated signal](#) 63
- [BORSCHEV P.I., OBODOVSKY V.D. Correction of procedure errors of parameters measurements of power equipment at commercial frequency](#) 69
- [NOVIK A.I., LEVITSKY A.S., KESOVA L.A., TCHEREZOV N.N., LUKASHUK G.G. A capacitive dust counter for coal boilers of thermoelectric power stations](#) 75

[Abstracts](#) 79

Institute of Electrodynamics, 2009
